**Please complete the below: Brief Description of your Graduation Project idea.**

StudentHub is a provider of collaboration platform. The platform offers capabilities, which enables users to create, access, organize, share, collaborate and secure the content. StudentHub platform aims to facilitate the student's academic life. The primary purpose of StudentHub is to streamline the process of sharing files among students, provide service for student unions and universities to engage with their students, and support digital transformation in Egyptian universities.
